FLORAL PRODUCTS

fresh talk!

Welcome to our sizzling summer issue full of inspirational sunny styles that showcase desirable everyday arrangements. With the sunshine comes the joy of outdoor entertaining and what better way to lead the way into an event than suspending small arrangements from trees. See page 4 for perfect garden designs. Whilst the weather at the RHS Chelsea Flower Show was a little chilly, this did not dampen the spirits of the crowds of people who descended on this gardener's paradise.

Interflora

The RHS Chelsea Flower Show is a global phenomenon - quite simply the greatest garden show on earth. A Gold Medal at Chelsea is the pinnacle of achievement for horticulturists and floral experts the world over. In its centenary year the show excelled and they even let in the little people. A naughty gnome crept into the Gold Medal winning Interflora exhibit that was a beautiful celebration of their 90th anniversary. The exhibit called 'Time Frames' captured Interflora's history and heritage over the last 9 decades, visitors enjoyed moments of nostalgia with styles, trends and flowers that have changed through the years.

NFU

The NFU and Waitrose's Gold Medal exhibit allowed visitors to walk through the stand to get a better understanding of what British growers produce. Everything was grown in Great Britain and the eye-catching British map, which took pride of place on the award winning exhibit, was specially made and cut to shape by OASIS® Floral Products.

The NAFAS exhibit entitled 'Far Below the Sea Blooms,' also got a Gold Medal for its lush and colourful arrangements that this year were created by SAFAS – the Scottish Area of NAFAS.

NAFAS

NAFAS

Above everything quality and reliability are needed at the RHS Chelsea Flower Show in both plant material and sundry items. The exhibits

have to last a whole week and this is why Gold Medal winning exhibitors choose OASIS® Brand Floral Foam Maxlife above all other floral foams. The properties in OASIS® Brand Floral Foam Maxlife means that designers and florists can rely on their flowers lasting up to 50% longer than in previous floral foam.

Pedestal and Jumbo Blocks are perfect for large floral arrangements and OASIS® Floral Products were proud to sponsor all three Gold Medal exhibits with not only OASIS® Brand Floral Foam Maxlife, in various shapes and sizes, but also containers, wires, water dyes, glassware and test tubes to name but a few.

The show gardens always attract a lot of attention but for florists a corner of the Great Pavilion is where the real action takes place. This is where the 'RHS Young Chelsea Florist' and 'Florist of the Year' competitions take place and at these hotly contested

competitions the standard of work was amazing. The young florists pulled out all the stops and five Gold Medals were awarded, the highest number of Gold's ever in the Young Florists competition. It's brilliant to know that there are so many talented florists, under 25 years of age, coming up through the ranks.

Gold Medal and Best in Show in the **RHS Young Chelsea Florist of the Year 2013 Competition** went to Paula McLagan from Something Special, Blairgowrie.

Interflora

Paula McLagan

Gold Medals also went to:

Charlotte Baker, Hubbards Florist, Coventry

Joe Massie, Joe Massie Creative

Bronze Medal

Caroline Crabb, Fleurtations, Bodmin

Karen Sherwin, George Preston Florist, Newry

Julie Cambridge, Julie Cambridge Floral Design

Melanie Garbutt, Passion Flowers Florist

Thousands of people were asked to vote by the Royal Horticultural Society on the plant of the century, and the successful plant was Geranium Rozanne ('Gewurt'). One of the reasons for its popularity is the lengthy flowering period and reliability, exactly the same reasons why florists choose OASIS® Brand Floral Foam Maxlife!

In the Great Pavilion the Diamond Jubilee Award went to Warmenhoven, the Dutch growers of Amaryllis and Alliums whose spectacular exhibit showed stunning blocks of purple Alliums. These were arranged at their best in parallel fashion and under a canopy of massed brilliant coloured Amaryllis hung upside down to display their beauty.

100 years of RHS Chelsea Flower Show has given the best of horticulture and with nearly sixty years of dedication to our industry, OASIS® Floral Products has given the very best to florists worldwide.

Finally its good luck to two young florists representing the UK in floristry competitions this year. Chloe Woolf who is the florist representing the UK in the WorldSkills in Leipzig and Sophie Watton our UK florist in Eurofleurs to be held in Croatia in September.

Enjoy our summer bumper issue with great ideas for seasonal sales!

BRANCHING OUT

With the summer party season in full swing easy alfresco designs will steal the scene.

Suspend groups of Hanging Glass Cone Vases from trees and branches to create a stunning entrance for an outdoor event. Decorate simply with floating crystals and pop in a few flowers. Don't forget to add Floralife® Cut Flower Food to the water to aid flower life. Branching out into open-air decoration can result in tree top profits.

Designer Tips

- Add Submersible Diamond Lights from OASIS® Floral Products for a pretty night time effect.
- For breezy days make sure all stems reach the bottom of the vase, as shorter flowers will blow out easily. The top of the vase can also be sealed with clear waterproof tape to secure the blooms.

BABY BLOOMS

Baby designs for a Prince or Princess.

With Royal babies a hot topic at the moment the focus is on what gifts to give new Mums and OASIS® Floral Cupcakes are the recipe for success.

Princess

Prince

Angel Cake

Fairy Cake

Prince

Ingredients

8cm OASIS® Floral Cupcake

Turquoise Galaxy Non-Woven Wrap

White Pearls on Reel

Designer Tips

- Wrap the OASIS® Floral Cupcake in a fabric wrap and glue to the container for extra security.
- Ensure the Pearls on Reel are tightly attached to prevent them slipping off.

Flowers and Foliage

Rose 'Avalanche'
Eryngium 'Orion Questar'

Princess

Ingredients

8cm OASIS® Floral Cupcake

Pale Pink Spiders Web

White Pearls on Reel

Designer Tips

- Soak the OASIS® Floral Cupcake by floating it upside down on water. Once the air bubbles stop and the container starts to sink remove and drain any excess water away.
- Ensure all stems are firmly pushed into the floral foam to allow maximum water uptake.

Chamelaucium - Waxflower Ofir
Bouvardia 'Royal Daphne Supreme'

DOORSTEP DELIGHT

Whether it's rain or shine don't miss out on summer sales, doorstep planters are a great money-spinner.

Tailor made doorstep planters should complement the door and surroundings and provide a summery look. The Round Willow Orchard Baskets are ideal for planted arrangements as they are available in three different sizes and are roomy enough to encourage plant growth. Decorate the design with well chosen accessories to accentuate the look.

Sundries

Round Willow Orchard Baskets

Cream Wired Wool

OASIS® Ideal Floral Foam Maxlife

Designer Tips

- Use crocks or gravel in the base of the basket to provide drainage.
- OASIS® Brand Floral Foam Maxlife can be used as a compostable material when broken down into small chips and added to soil. Mix the floral foam with the soil to aid its water storing capabilities.

Flowers and Foliage

OASIS® Fix Adhesive Tack

Designer Tips

- Use OASIS® Fix Adhesive Tack to firmly stick the Floral Foam container into the card using a Pinholder. This will prevent movement in transit and spillage in the home.
- Ensure that the Living Card arrangement has a perfect side view as well as frontal design.

VICTORIAN UPDATE

Artificial silk and dried flowers are set for a comeback.

Updating styles to reflect today's discerning customer's needs is essential and the Victorian look of this Glass Dome from OASIS® Floral Products has been given a modern day makeover. Follow these easy step-by-step instructions to make this stylish design.

Flowers and Foliage
Dried Eucalyptus Leaves
Artificial Phalaenopsis
Orchids

How to...

1. Cut the OASIS® Styropor Sphere in half and make a hole in the top to hold the OASIS® Mini Deco snugly. Glue the OASIS® Mini Deco in place using the OASIS® Floral Adhesive Tube.

2. Cover the OASIS® Styropor Sphere with dried Eucalyptus leaves. Start at the bottom overlapping the leaves to make a neat pattern. Pin in place with Clear Diamante Pins ensuring that all of the OASIS® Styropor Sphere is covered.

3. Crunch Aluminium Wire together to make a flat plate with a decorative lip. Thread Beads through the rim with silver Bullion Wire. Add a frill of Mini Preserved

Gypsophila to cover the OASIS® Mini Deco and pop an artificial Phalaenopsis Orchid into the top. Finish by placing the arrangement on a cake plate with the Glass Dome fitting over it. Decorate the outside of the Glass Dome with more artificial Phalaenopsis Orchids.

Make a Fresh Start with **FloraLife®**

There is a simple 5 Steps to Fresh plan for professional flower care. It's an insurance policy for florists to guarantee that flowers and flower care is vital, floristry skills are not enough, expert organization, high-quality cleanliness and specialist flower care all work for flowers, their FloraCare® programme of study and research explores the best possible ways in which to do this. Try this 5 Step

Sanitation

There's nothing worse than the pong of dirty flower buckets, nasty to smell and look at and what's more harmful to the flowers. Proper sanitation is an integral part of flower care and handling. Bacteria and fungi build up fast in dirty buckets and can penetrate the flower stems. This means the water carrying tubes in the stems become clogged with slime and causes premature wilting. Use **Floralife® Cleaner** to give your flowers the best start from the very beginning. Use it to clean your work surfaces, cool rooms and tools to ensure optimum sanitation as **Floralife® Cleaner** has less harmful properties than house detergents and bleach.

Hydrating

Hydration in a flower shop is important from the minute cut flowers arrive from the grower or wholesaler. Often the florist has no idea what sort of treatment the flowers have been given by the grower and when flowers arrive dry packed they need immediate attention. **Floralife® Quick Dip** is an instant, ready-to-use re-hydrating solution for all types of flowers. Using **Floralife® Quick Dip** as a hydrating treatment when conditioning flowers gives them an extra boost by promoting water uptake, which prevents bent neck and limp leaves. Jump-start your flowers by using this effective product.

Nutrition

Floralife® Clear 200 Storage Solution will keep cut flowers in good condition. Formulated to provide the correct amount of nutrients for premature bud opening, this solution is great for all types of flowers. Cutting the flower stems in this solution is a great way to start flowers. It gives flowers the correct amount of nutrients so use a dosing unit or hand pump to ensure optimum flower freshness.

Starting fresh is easy with this **5 Steps to Fresh** programme by **Floralife®**.

Use the full programme or mix and match products to suit your needs, ensuring professional

and foliage last the longest possible time for customers. Applying professional standards and techniques when it comes to working hand-in-hand with floral design talent. Floralife® are constantly researching and developing products to enhance the life of flowers to Fresh plan for maximum flower lasting qualities.

Age and Transport
Flowers fresh and in ideal condition to hydrate and provide nutrients to inhibit wilting or bent neck, this is essential for all types of flowers. Re-arranging and using this solution for flower care. It's critical to the amount of flower food and water in the vase.

Protection

Floralife® **Finishing Touch** is a ready to use liquid finishing spray mist used on fresh flowers and foliage, floral designs and pot plants to refresh, hydrate and protect. It's an essential tool for florists, particularly useful for bridal work where buttonholes, corsages and bouquets can be made up in advance and then protected with a quick spray. The spray is transparent and leaves no residue, try it on pot plants and foliage too, it's a clear winner.

Customer Care

Flowers need a continuous supply of energy and water to gain maximum vase life. Using properly formulated flower food such as Floralife® **Clear Flower Food Sachets** provides the necessary conditions to improve the life of cut flowers. Floralife® **Clear Flower Food Sachets** give a nutritional boost to flowers and is available in liquid and powder form. Use also for cut flower storage, vase solutions and floral foam soaking to help keep flowers in peak condition.

6 Leafshine

As an added 6th Step in your programme, use Floralife® Leafshine to add a beautiful and professional luster to foliage. Floralife® Leafshine creates a natural shine to foliage and leaves it looking natural, not oily.

excellence and the sweet smelling way to success.

TWENTY-ONE TODAY

Why keep OASIS® FOAM FRAMES® Numbers exclusively for funeral tributes when they make fabulous table centres for parties and events?

Fun, young and funky saying 'Happy Birthday' with a brightly coloured twenty-one decoration will set the party off to a swinging start. Site the arrangement in the centre of a buffet or cake table for maximum impact. Use primary colours to accentuate the youthful design and the future is bright for novelty party designs.

Pins

Flowers and Foliage

Spray Roses 'Glorious'
Spray Roses 'Babe'
Spray Chrysanthemum
'Santini Viking'
Spray Chrysanthemum
'Feeling Green'
Liriope – Lily Grass

Designer Tips

- Accentuate the shape of the numbers with swirls of Lily Grass held in position with decorative pins.
- Add a double edging of frothy Silk Mesh Ribbon for a soft effect and glue or pin into place.
- Drain any excess water from the numbers before placing the design on the party table.

CONGRATULATIONS & CELEBRATIONS

For the class of 2013 this delightful graduation gift made using a large OASIS® Floral Cupcake will say 'Congratulations' with maximum effect and greatest profit.

Cover the base with classy black and red coloured Organza, add a frothy topping of white Carnations and decorate with a graduation scroll and cap. When school is out and exams are over it's time to party and for graduation events use the large OASIS® Floral Cupcake for a table centre and smaller ones as place settings.

Sundries

12cm OASIS® Floral Cupcake

Black Bullion Wire

Black Organza Fabric

6mm Red Round Headed Pearl Pins

Flowers and Foliage
Carnation 'Liberty'

Designer Tips

- Scrunch and mould Bullion Wire to make a small cap and attach with a pin and ribbon.
- To personalise the design make a paper scroll, add the name of the graduate and tie with red ribbon.

TWILIGHT

The symbolic shape of a cushion funeral tribute suggests the last resting place.

Soft and gentle twilight colours give a peaceful feeling and a sense of calm on such a sad day. The tribute made on an OASIS® NAYLORBASE® Cushion holds plenty of water for the thirsty Hydrangea base. See below how to use Floralife® Quick Dip to promote water uptake.

Sundries

SCENTS OF SUMMER

Fragrant flowers in a traditional Wooden Trug Basket give the abundance garden look of high summer.

Incorporate a sweet scented candle to give added value to this perfect seasonal gift. To make this popular basket arrangement, follow our easy step-by-step instructions.

Sundries

OASIS® Ideal Floral Foam Maxlife

Grey Wooden Trug Basket

Pot Tape

Large Square/Round Bowl

Gold Aluminium Wire

Flowers and Foliage

Stocks
Rose 'Vuvuzela'
Peony 'Sarah Bernhardt'
Astilbe 'Europa'
Spray Rose 'Lydia'
Hypericum 'Excellent Flair'
Spray Chrysanthemum 'Amadea'
Asparagus Sprengii
Aralia
Dracaena sanderiana
Phoenix roebelenii - Palm

How to...

1. Float half a block of OASIS® Ideal Floral Foam Maxlife until it is completely submerged. Always soak in a Floralife® Flower Food and water solution to aid longer flower life. Use a Large Square/Round Bowl to hold the floral foam firmly and attach Pot Tape around the handles of the basket and across the floral foam to secure in place. Start to make the outline of the arrangement with foliage.

2. Strengthen the main outline with more foliage and add the vertical placements of flowers. Re-cut all the stem ends diagonally for better water uptake and push firmly into the floral foam. Place the tallest flowers right at the back of the floral foam to give depth to the finished arrangement.

3. Continue to add the flowers using the Peonies and larger flowers in central placements. Fill in with smaller flowers around the extremities of the arrangement. Although this is a front facing design the arrangement should look good from the side view and the back must be neatly finished with foliage. Secure coils of Aluminium Wire to one side to firmly encase the scented candle.

GARLAND OF LOVE

A coffin garland is a time honoured traditional decoration and a significant choice for a funeral tribute.

Garlands have played an important role in worship throughout history. Choosing a wicker coffin reflects the lifestyle of the deceased and this softly flowing garland festoons the sides of the coffin enhancing the beauty of the hand crafted cane design. The garland is made using approximately two and a half OASIS® Ideal Floral Foam Netted Garlands, which makes it quick and easy to make and an impressive tribute.

Sundries

OASIS® Ideal Floral Foam Netted Garland
